# your solution

## We have a solution for you

Imagine being able to dynamically launch new Life and Pension products, set-up new policy distribution channels, explore new potential markets; all without incurring any additional IT costs. These are just some of the many features available in Percana's ECLIPSE enterprise Life and Pension solution.

With ECLIPSE your organisation can manage its Life and Pension products efficiently, securely and cost-effectively throughout their life cycle. Our use of modern proven technologies combined with our extensive industry expertise delivers a robust and functionally rich solution tailored to your precise needs. ECLIPSE allows an organisation to focus on its core competencies through the provision of superior processing, eBusiness and system interoperability capabilities.

To support an organisation's outsourcing requirements, Percana offer a comprehensive range of Life and Pension Administration and IT services. Our proven track record has earned us a reputation for delivering flexible, high quality and cost-effective outsourcing solutions. Percana's expertise in policy management, fund administration and investment accounting, regulatory reporting and system management allows an organisation to confidently outsource a wide range of otherwise costly functions.

*World-class organisations are built  
on world-class solutions*
